WE WROCŁAWIU

The exhibition can be viewed until 14 February 2023

Cosmos Lem Jewellery is an international project organized by the Eugeniusz Geppert Academy of Art and Design in Wrocław, including works of more than 100 artists. The project creators submit to its participants to use different ideas of the Universe and the literary output of Stanisław Lem, the great Polish artist: writer, philosopher and futurologist, as a source of inspiration. The project materialised a unique collection of objects of a broadly understood jewellery nature, which will be presented successively in specially selected places. The project originators hope that in the discourse of contemporary art, which in recent years was directed towards the past and the present, this statement will become, a look into the future, an important declaration to inspire also other artists to look in this direction, and therefore to have art and artists once again assume the role of a vanguard: the avant-garde of culture.

The vernissage will be preceded by a lecture by Lieta Marziali entitled: A Leap Into Nothingness, and the Freedom of Possibility: Art as Thinking Praxis. On 20 January 2023 (Friday) at 4 p.m. CSU.Cl building lecture hall 410 Traugutta Street 19/21, Wrocław
